It makes a very significant contribution to the diet of many fish consuming communities in both the developed and developing world. It is accounting for almost one-fifth of all animal protein in the human diet. Fisheries and Aquaculture remain very important to many countries and communities as a source of food, employment and revenue. Although fish is a renewable resource, it is also destructible. Current fishing levels and methods place significant pressure on world fisheries and marine ecosystems. [...] 20 pp. Englisch.
