Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from *Physic and Physicians as Depicted in Plato* Our Historical Club had under consideration last winter the subject of Greek Medicine. After introductory remarks and a description of the AEsculapian temples and worship by Dr. Welch, we proceeded to a systematic study of the Hippocratic writings, taking up in order, as found in them, medicine, hygiene, surgery, and gynaecology. Among much of interest which we gleaned, not the least important was the knowledge that as an art, medicine had made, even before Hippocrates, great progress, as much almost as was possible without a basis in the sciences of anatomy and physiology. Minds inquisitive, acute, and independent had been studying the problems of nature and of man; and several among the pre-Socratic philosophers had been distinguished physicians, notably, Pythagoras, Empedocles, and Democritus. Unfortunately we know but little of their views, or even the subjects in medicine on which they wrote. In the case of Democritus, however, Diogenes Laertius has preserved a list of his medical writings, which intensifies the regret at the loss of the works of this great man, the title of one of whose essays, *On Those who are Attacked with Cough after Illness* indicates a critical observation of disease, which Daremburg seems unwilling to allow to the pre-Hippocratic philosopher-physicians. We gathered also that in the golden age of Greece, medicine had, as to-day, a triple relationship, with science, with gymnastics, and with theology. We can imagine an Athenian father of the middle of the fourth century worried about the enfeebled health of one of his growing lads, asking the advice of Hippocrates about a suspicious cough, or sending him to the palaestra of Taureas...
