A high quality pdf as well as the typeface applied was exciting to see. It really is written in simple words and phrases rather than difficult to understand. You will not really feel monotony at any time of your time (that's what catalogs are for relating to in the event you question me).

Dog Ear Publishing, United States, 2014. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book ***** Print on Demand *****.Join Beamer and his best friend Kyle as they go on a magical journey to learn about Type 1 Diabetes with their good friend Michael. The delightful characters they meet throughout their journey will help us understand how our bodies work and how to successfully manage Diabetes on a daily basis. I am a physician in the Pediatric Emergency Department, and one of the most challenging parts of my job is delivering bad news to families. It is always difficult to inform the family of a diagnosis that will change their lives forever, and Type 1 Diabetes is one of these diagnoses. I found the book to be very detailed, organized, and written in simple language to help explain a very complex problem. Having a book like this available will definitely be a great tool to help newly diagnosed children get a better understanding of what the future holds for them and how this disease is treated. This will also be a great educational tool for parents, guiding them to find the words to help the patient, their family, friends, and siblings understand the illness. I would really encourage publishing similar books. Eugenie Charles, M.D., F.A.A.P. (Inova Loudoun Hospital) Pediatric Emergency Physician **Beamer Learns About Type 1 Diabetes** is a book filled with delightful characters that make it easy to understand what Diabetes is and the importance of insulin in our bodies. As a nurse in the Pediatric Emergency Department, I understand the importance of education families on this important topic. When children and parents are first diagnosed with Diabetes in the Emergency Department understandably their first reaction is fear and anxiety about the diagnosis. This...
